

Review Tutor is a youth led initiative that has a mission to provide education to students around the world. Through teaching children, we hope to make an impact that lasts a lifetime. After noticing the consequences of the pandemic, we decided to launch Project30.

Project30 is a program working to connect a community of student learners and tutors. We believe that sharing knowledge to teach others is essential for success. Project30 will match 30 students to 30 tutors in a 30 day long program where tutors will aid students in grade-level academics.

Review Tutor has created this application to create perfect matches for students and tutors. If you are interested in this program as the role of a student, fill out this application to the best of your ability.

Once you have filled out this application, someone from the Review Tutor team will reach out to you. In order to better know our applicants and effectively match students, we will schedule a meeting at a future date.

In the Project30 program, students will attend (2) 1 on 1 meetings with their designated tutor during the week. In the meeting, tutors will aid students with any educational (grade-level) help they need.

****Note: Only 30 applicants will be selected in this program, however if you are not selected, you will be added to our waitlist. Students from the waitlist will be matched at a future date with a tutor. ****

Parent Information

First Name:	Middle Name (optional):	Last Name:
Email:		Phone Number: (____) - ____ - _____

Student Information

First Name:	Middle Name (optional):	Last Name:
